

CUTTING-OFF MACHINE | DTI 450 Double Mitre Cutting-off Machine

The various versions of ITALMAC double head cutting-off machines with state-of-the-art technology suitably integrate the productive cycle of moderately organized companies that need to cut off aluminium and PVC bars with various thicknesses and corners.

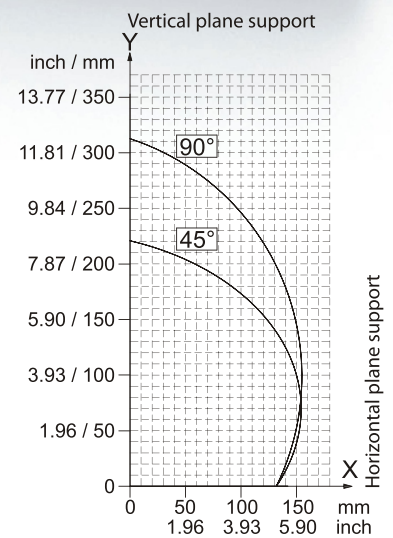

The machine precision and robustness together with an easy-to-use system to run them are further enhanced by the possibility of integrating them with the most widespread managing and calculation systems.

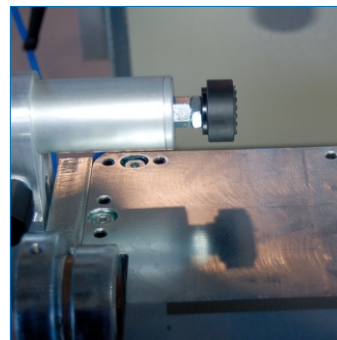

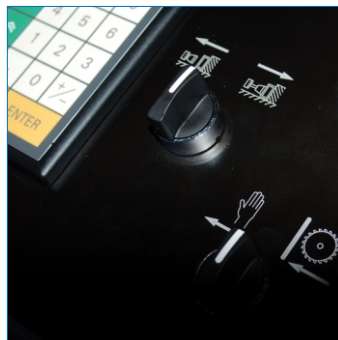

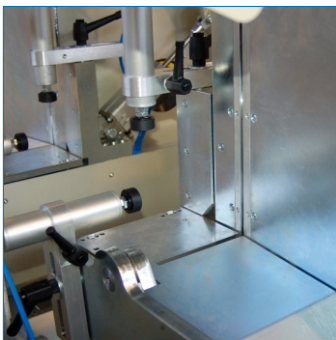

Double mitre cutting-off machine with automatic right head movable by a numeric control. Pneumatic tilting of both heads external cuts 90°, 45°. Sawblade diam. 450 mm available with maximum cutting length of 4 and 5 meters.

Technical features:

- N. 2 saw blades diam. 450 mm.
- Pneumatic vertical and horizontal clamps.
- Protection of the blades.
- Movable side profile support roller conveyor.
- Software single cut and step-by-step cuts.
- Control panel LCD 4x20 with numeric membrane keyboard with hotkeys for the cutting menu.

DTI 450 cutting diagram

Models	Maximum cutting	Minimum cutting	Dimension	Weight	kW
DTI 450	4000 mm - 158 in	310 mm - 12.2 in	5950x1400x1650 mm - 235x56x65 in	800 kg - 1760 lb	5
DTI 450	5000 mm - 197 in	310 mm - 12.2 in	6950x1400x1650 mm - 274x56x65 in	900 kg - 1980 lb	5

Options: Movable console; Chips conveyor plate.
