

The World Leading Supplier of tools for the manufactures of windows and doors

We are a dynamic organisation with a wide breadth of experience in the development, manufacture and sales of cutting tools for UPVC-, aluminium, steel and composite materials and profiles for the industries of windows, doors and curtain walls.

Our specialised knowledge is highly valued by our customers and is a corner stone of our business strategy. We work together with our customers to provide the best solution for their application. But no matter how small the problem, our specialists are delighted to serve our customers giving advice and speedy applications support.

Incorporating all the recent developments in technology our streamlined production methods enable us to react fast to our customer needs. On-off's and small batches are generally no problem.

WEMARO Tools are tested to the highest quality standards and are continually developed and improved.
